IV. Open Items

V. New Business

- a. Facilities had some ideas for how to spend our surplus money including scaling up the projects, and our current options for the surplus money are new/old projects, saving it for next year, or scaling up our current projects
 - i. Lucas thought that we should spend it if possible but he still thinks the fairest option is to open it up again for more project proposals and that we should possibly roll it over if we can't open the proposals again
 - ii. Sophia agrees that we should try to open it up for proposals again and mentions that maybe we should try to fund the bike shelter from last year
 - iii. Noah proposed the idea of giving back the fee money
 - iv. Sophia stated that she didn't think that rolling over the money would be unethical to students who will not see the benefits
 - v. We could also ask ASCSU if they want to match against a project
 - vi. Helen thinks it would be most ethical to open up the proposals again
 - vii. Noah put in a motion to reopen the application for 2 weeks and it was approved

- viii. Noah states that we should have all of the money be available and not put any of the extra in reserves
- ix. Noah put in the motion to have the 106,446.64 to be put in the two-week window and it was approved
- b. PSFAC
 - i. Sophia recommended possibly proposing the carpool app
